Investment is a common, everyday occurrence. Companies(19.)_____time and money in finding and training their employees. Employees invest in their own training and education. Financial investment takes place at a corporate level and at an individual level. Whether an individual or a company, a decision must be made on the percentage of (20.)_____to have invested and the percentage to have in cash.

To avoid making stupid decisions, many people use financial advisors. Financial advisors help individuals and corporations make (21.)_____investment decisions. What kind of portfolio should be maintained? Why should be in this (22.)_____. At what point should an investor pull back or (23)_____of the market? What kind of (24.)_____should the investor realistically expect? How much risk can an investor take (both emotionlly and financially)? Investors who are (25.)_____for the (26.)_____can more easily weather the ups and downs of a market. As one analyst commented, "If you're staying awake at night thinking about the stock market, you probably have too much invested".

Many employees have retirement plans at work. They decide what level of contribution to make to a certain (27.)_____. These decisions and large company decisions depend to a large degree on (28)_____. Is the decision maker (29.)_____or (30.)_____? That attitude often depends on the age of the investor or on the stage and the needs of the business.
